

# **EXPAND TRADING CO.**

PROVIDING WHAT YOU NEED  
TO GROW AND THRIVE

BRINGING SATISFACTION & INNOVATION  
TO EVERY CLIENT WITH RESPECT

# 1- ABOUT

---

Headquartered in Jeddah, Saudi Arabia, Expand Trading Co. Was established in 2015. Serving the stable and fast growing Saudi Market, Expand Trading Co. has actively developed a team of professionals with a shared vision, to address and produce high quality work to their clients in the field of imports and exports, electrical, safety and security, alternative energy, power Generation, heavy equipment, and auto mobile parts. With the mindset that every customer is a referral, we seek to develop steady, long-term relationships.

## 2- MISSION & VISION

---

We pride ourselves in our ability to bring a fully integrated approach to all aspects of the process, we offer our clients full-service solutions for all of their needs. Our perspective is that the client relationship goes beyond a single sale.

We strive to understand the unique challenges and goals of each client, enabling us to offer customized strategies that drive success. Our commitment to excellence and continuous improvement means that we are always evolving to meet the changing demands of the market, ensuring that our clients receive the highest level of service and support.

# 3- COMMITMENT

---

AT EXPAND TRADING CO., WE TAKE THE TIME TO:

## **DESIGN + EDUCATE**

We are committed to our clients, and to expanding the industry. We do this with our promise to educate. Our customer-centric approach allows us the opportunity to interact with our clients to ensure they understand the many benefits of the products they're installing, putting us in the unique position of the trusted advisor.

## **MANUFACTURE & DISTRIBUTION**

From our own and partnered factories, we create **Items** according to our customer design.

## **PRODUCTS**

We provide a wide range of products that are catered to every client's needs.

## **INSTALL**

# 5- PROJECTS

---

## EXPAND TRADING CO. MAJOR PROJECTS SUMMARY

In our large-scale projects such as King Abdulaziz Airport, King Khalid Airport, the Red Sea Project, Taif Airport, and the Haramain Project, we utilized all our diverse services to ensure comprehensive and high-quality solutions. Our services include:

### Electrical Services

We implemented comprehensive electrical solutions, including interior and exterior lighting, electrical installations, maintenance, and various upgrades.

### Safety and Security Systems

We provided safety equipment such as eye wash stations, fire alarms, and security systems for sensitive facilities.

### Facility Management Systems

Advanced technologies like robotics and electronic systems for warehouse management, optimizing processes, and increasing efficiency.

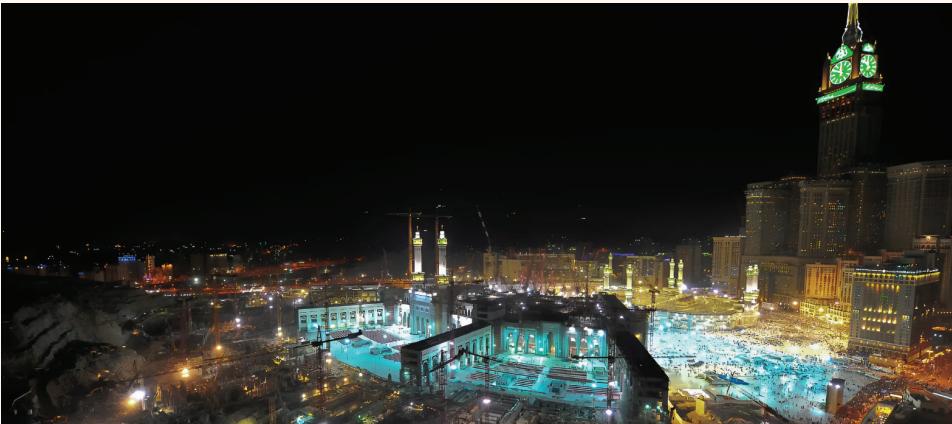

### Mechanical and Electrical Systems

We provided integrated mechanical and electrical equipment for buildings and critical facilities, including generators, lighting, and technological systems.

### Storage and Workshop Solutions

Providing storage equipment and workshop tools that enhance performance in large-scale projects.

Manufacturing and Installation: End-to-end services from manufacturing to installation at major project sites.

## HARAMAIN PROJECT

We provided multiple solutions in electrical, safety, and mechanical systems, ensuring the project was developed to the highest level of efficiency.

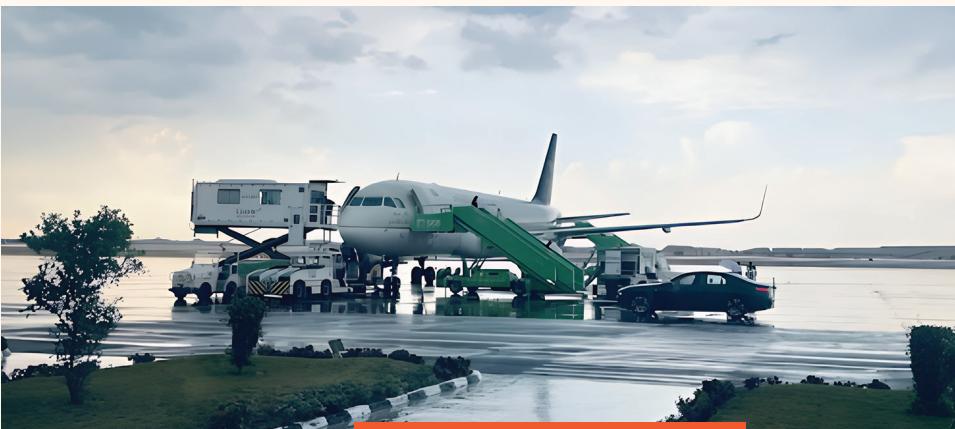

## KING ABDULAZIZ AIRPORT

We provided integrated services including electrical, security, and facility management solutions to ensure the airport operates at peak efficiency.

## KING KHALID AIRPORT

Our services included advanced security and safety solutions, as well as electrical system improvements to meet the demands of a modern airport.

## TAIF AIRPORT

Our services included electrical system upgrades, safety equipment provision, and advanced technology integration to create a safe and efficient environment.

## ST. REGIS RESORT

We provided comprehensive solutions, including electrical, security, and facility management systems, to ensure the seamless operation of St. Regis Resort. Our services encompassed advanced lighting, safety systems, and energy-efficient technologies, enhancing the resort's luxury experience and operational efficiency.
